

# Pairing Modern Endodontic Instrumentation with Advanced Obturation Techniques

Friday, October 11, 2024 | 8:00 AM - 3:00 PM ET

## Renaissance Concourse

1 Hartsfield Centre Parkway Atlanta, GA 30354

**Cost: \$249.00**

Kerr provides all course materials.

### Course Description:

Dentistry has been revolutionized by technology, particularly in the field of endodontics. The way endodontic patients are treated has undergone tremendous changes in the past decade. Staying up-to-date with current techniques and concepts in endodontics is crucial for achieving successful outcomes.

This lecture will cover the following topics:

- The Latest Endodontic Instrumentation
- Advanced Endodontic Obturation Techniques

### Learning Objectives:

- Overcoming Common Obstacles in Cleaning and Shaping Canals
- Understanding Key Objectives in Endodontic Instrumentation
- Achieving Excellent Root Canal Obturation
- Learning Various Techniques for Obturating Root Canal Systems

### Presented by: Dr. Name Goes Here

Dr. Short was awarded a presidential scholarship and studied at Morris Brown College, from 1992-1995 to achieve a Bachelor of Science degree in 3 years. He graduated valedictorian with a 3.98 GPA. Dr. Short attended the Medical College of Georgia School of Dentistry from 1995-1999 and attained a Doctor of Dental Medicine Degree in which he graduated with honors. He went back home to practice general dentistry in Columbus Georgia for 2 years. Dr. Short's compassion lead him to treat underserved children who had less access to dental care and help those who wanted to save their teeth.

It birthed the desire for him to become excellent in one particular area in dentistry: root canal therapy
